ously wounded.

The Marahut column was strongly resisted at the mouth of Taraca river, although every effort was made to accomplish a peaceful landing, and two enlisted men were seriously wounded. The combined forces assembled in the valley on the the of April and a large valley on the 4th of April and a large number of hostile fortified cottas, occupled, were destroyed from April 4th to

The troops then returned to their proper stations. Newcomb, company K, Seventeenth infantry, and Wampler, company D. Twenty-third infantry, were killed. Every effort was made to oring the Moros to terms peacefully, but in each instance our troops were attacked before firing a shot, and force was only used when all other methods failed and the enemy attacked us. failed and the enemy attacked us. The two chiefs who have been at the bottom of the trouble on the cast side of Lamao for two years are now in hiding, and they will be arrested if possible.

Gen. Wade, to whom Gen. Wood's report was made and transmitted to the department, adds that the conditions in the Taraca valley for the last three months have been such as to render the above action absolutely necessary.

## MORE FIGHTING IN SOUTHWEST AFRICA

Chief Force of Herreros Attacked by German Troops and

Routed

BERLIN, April 11.-The Foreign office today received the following from Col. Leutwein, the German Southwest. Africa Governor:

With the united principal division of western division I attacked the enemy's chief force, about 3000 strong, at Onganjira. The Hereros were in a strong semi-circular position on a hill fronting the northwest. We first flanked and forced back the enemy's left who and then attacked the center. left wing and then attacked the center and right. Two energetic counter at-acks of the enemy against our left. were repulsed. The enemy's position was broken through at nightfall, after eight hours fighting, and the enemy was driven back on all sides. The chief forces apparently retired in a north-casterly and easterly direction. Our losses included Lieuts, von Estorff and on Erffa and two cavalrymen killed. Lieut Roseoberg and five men severely wounded and five men slightly wound-ed. The enemy's loss has not as yet been ascertained, but was heavy, owing to the excellent effect of our artillery

curable, but which Grape-Nuts food alone cured:

'In October, 1899, when my enlistment expired, I was discharged from the army at Calulute. Philippines, and returned to the States on the first available steamer that left Manila. When I got home I was a total wreck physically and my doctor put me to bed saying he considered me the worst broken-down man of my age he eved saw and after treating me 6 months he considered my case beyond medical aid.

'During the full and winter of 1900 and '9! I was admitted to the Barnes Hospital in Washington, D. C. for treatment for chronic inflammation of the stomach and bowels, but after 5 months returned home as bad as ever.

'I continued taking medicine until February, 1902, when reading a newspaper one day I read about Grape-Nuts and was so impressed I sent out for a package right away.

# UTAH AND WYOMING

Gen. Wood Makes Report of Attack | Prof. F. H. Oliphant of the Geological Survey Tells of Prospecting Done in 1902.

> WASHINGTON, D. C., April 11.-Prospective oil fields of the United States are treated in the report of F. H. Oliphani of the geological survey, on the production of petroleum in 1902, which is con-

Green river, where a limited quantity of high-grade intricating petroleum was developed by the San Hatriel Oil company. Fetroleum was also developed in the Sanhadrel Oil company. Fetroleum was also developed in the Sanhad field, twenty-five miles southwest from Green River station, and mear Bluff, in San Juan county.

Regarding Wyoming he says known petroleum fields are widly distributed over the State of Wyoming, from the southwest to the northeast corner. The production for 1862 was 623 harrels of crude petroleum, valued at 44-77. The wells which produced this oil are at Sale creek, in Natrona county. They are ten in number and belong to the Pennsylvania company. The most active work during the year was in Unita and Sweetwaiter counties. At Spring Valley, in Unita county, there is a disposit of remarkably pure petroleum. Several spouting wells have recently been drilled in Fremont county. Prospective fields are known near Newcastle, in Weston county and near Bonanga, in Bighorn county and near Bonanga, in Bighorn county. They are far from any manufacturing centers. No lines of transportation connect them with consumers. Unfortunately for the petroleum operators, Wyoming is also abundantly supplied with bituminous coul of good quality.

A number of petroleum springs are known to exist in two localities in Montans. One of these is in Flathead and Scaton countles, near the Canadian boundary. The other section is in southern-central Montans, in the counties of Sweetgrass and Carlson. Three wells have been recently completed in Carbon county, all of which are reported to have developed a chowing of heavy petroleum. Indications of petroleum have also been reported in Beaverhead county, in the extreme southwestern portion of the State. An extensive field of petroleum shuls has also been discovered about sixty miles northeast of Helena and from this shale an oil of the highest character has been distilled. There is reason to believe that these deposits are of great commercial value.

# RACE FEELING RUNS

Murder of Farmer Arouses the People, and Lynching of Black Is Threatened.

HOUSTON, Tex., April 11.-News from Walter county, sixty miles north of here, indicates that race feeling is very high, owing to the murder, near Hempstead, of Tucker Pinckney,

brother of Congressman J. M. Pinckney of the Houston district. It appears that Pinckney and a com-panion were riding by a negro church when they were fired upon. While the dead man's body lay in front of the church a negro with a shotgun rode by and informed the crowd that he did the shooting, after which he disappeared. This negro had a finger shot off, which indicates that Pinckney and his companlon, whose name is not known, re-

turned the fire.
George Goss, who was with Pinck-ney, says he thinks the negroes mistook the dead man for him. Over 100 armed whites are in the field after the negroes. Congressman Pinckney wired that he would leave Washington today and will

arrive at home Wednesday.

The dead man was one of the leading planters and stockmen of this section.
